REMARKS / ARGUMENTS

The Examiner rejected claims 1-126 as being directed to multiple inventions. The applicant has canceled all pending claims and entered new claims 132-262 in an attempt to assure there is no inadvertent improper tracking of changes in the currently pending claims. The applicant has canceled many of the new claims

The applicant suggests that the currently pending claims are directed to the invention described in FIGS. 5 and 7. The applicant does not represent that any of the canceled claims likewise do not read on the invention described in FIGS. 5 and 7, while in fact several of the canceled claims do read on the invention described in FIGS. 5 and 7.

Allowance of the currently pending claims is requested.
